## THE SAINT MARTIN LOFTS PARTNER WITH 19 GREEK STREET

The Saint Martins Lofts, the much awaited residential re-development of the iconic Saint Martins School of Art in Charing Cross, has announced

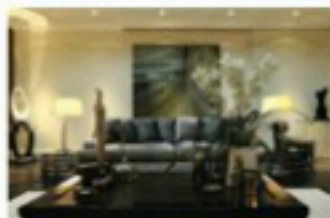

a unique collaboration with Soho-based design hub 19 Greek Street to create a show apartment.

In keeping with the creative heritage of the building, developers Aquila House Holdings Ltd and Noved Property Group have commissioned Marc Pèridis, director of 19 Greek Street,

and an alumnus of Central Saint Martins, to style the interiors of one of the apartments as a showcase.

Much of 19 Greek Street's philosophy is based on promoting sustainability, social design and up-cycling, without compromising high quality and aesthetic values. Therefore, the show flat features unique design pieces from a range of global independent designers, such as Nina Tolstrup and Australian company Super-cyclers, with an emphasis on resourcefulness.

The show flat will be available to view from mid-May. [stmartinslofts.com](http://stmartinslofts.com)
